---

**Objective:** I am seeking an entry level software engineering or web design position where my communication skills, detail oriented, and strong work drive can be adequately used to advance your company to the next step.

**Education:**

Oregon State University - Cascades, Bend, OR

September 2019 - Current

- Studying towards Bachelors Degree in Computer Science.
- Major in Computer Science.

**Experience:**

- Created a personal portfolio used to store future and current projects.

**Computer Skills:**

HTML, CSS, Basic Javascript, Bootstrap, Github, VS Code, GoogleDocs, Microsoft Office

**Related Courses:**

Vector Calculus, Differential Equation, Physics, Intro to Computer Science

**Work Experience:**

Life and Time - Lead Line Cook

January 2019 - Current

- Leading my current crew members through dinner service for our restaurant learning and improving group communication skills and leadership qualities.
- Manage inventory and use excel to express the needs of the restaurant to other prep kitchens and management.

Blue Toba - Cook

May 2018 - January 2019

- Efficiently multitasked between cooking, taking orders, taking phone calls, and remembering who order which meal.

**Additional Skills:**

- Quick learner to most technical things with the drive to succeed and exceed expectations.
- Creativity and design are skills have been proven to my community by having my own gallery for creating wooden bowls during my high school years.

**Volunteer Work**

- Worked with an organization called Lotus Rising Project as a leader to help increase communication between LGBTQ and local communities.
